

The Gold Standard in Controlled Targeted Embolization

EmboGold™ Microspheres, from the leader in microsphere embolization, bring visibility to our proven microsphere technology. Combined with our pre-filled syringe, they are designed to offer easy handling, superior procedural efficiency and enhanced safety.

EmboGold Microspheres are made with trisacryl gelatin for superior handling and reliable control compared to PVA and SPVA products.

EmboGold Microspheres

Precisely Calibrated Sizes

EmboGold Microspheres, unlike PVA, exhibit a consistent cross-sectional diameter, significantly increasing confidence in sizing accuracy.

Flow Directed

Round shape, like the vessel lumen, enables EmboGold Microspheres to take advantage of hemodynamic flow to the target vessels.

Highly Targeted Delivery

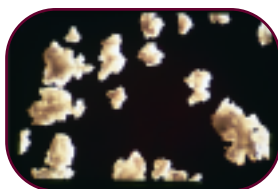

Precise match of sphere and vessel lumen diameters at the desired point of occlusion for targeted embolization.

Compressible and Non-aggregating

- Elastic properties allow temporary deformation, facilitating smooth passage through small catheters
- Hydrophilic surface and spherical shape prevent aggregation within the catheter lumen and in the vasculature, promoting ease and accuracy of delivery
- Unmatched catheter patency guarantee

Backed by Research

- Most clinically studied round embolic
- Nearly 50 peer-reviewed clinical articles
- Consistent and durable prospective clinical results
- Familiar protocol proven over five years of clinical experience
- Technology proven in over 100,000 procedures worldwide

PVA

EmboGold Microspheres are the only colored embolic particles made with trisacryl gelatin. They are supplied in a pre-filled syringe for added procedural efficiency and efficacy.

Ordering Information

EmboGold Microspheres Pre-Filled Syringes

Size Range (µm)	Color Code	1 mL* Order Number	2 mL* Order Number
40-120*	Orange	S 110 EG	S 120 EG
100-300	Yellow	S 210 EG	S 220 EG
300-500	Blue	S 410 EG	S 420 EG
500-700	Red	S 610 EG	S 620 EG
700-900	Green	S 810 EG	S 820 EG
900-1200	Purple	S 1010 EG	S 1020 EG

Syringes (20 mL) packaged five (5) per box.

*Please contact your local sales representative for availability.

The Only Embolic with a Catheter Patency Guarantee

BioSphere Medical guarantees that a catheter having an I.D. compatible with the size EmboGold Microspheres being used will not become obstructed due to aggregation of the microspheres. Should this occur, BioSphere Medical will credit the invoice cost of the catheter to the customer's account. This guarantee will apply only after the physician and the clinical team have received a complete in-service of the instructions for use for the product by a BioSphere Medical representative. The catheter must be returned to BioSphere Medical for inspection by our technical staff.

Call customer service for complete details.

Customer Satisfaction Guarantee

BioSphere Medical will accept return of any remaining inventory and credit the entire amount of the original order to any customer who is not satisfied with the performance of EmboGold Microspheres. This guarantee will apply only after the physician and clinical team have received a complete in-service of the instructions for use for the product by a BioSphere Medical representative. Call customer service for complete details.
