MESA® Degenerative Spinal System

Breakthrough, revolutionary, top-loading, and low-profile spinal system featuring Zero-Torque Technology® and 60° range of motion while providing the surgeon the ability to one-step lock without torsional stress applied to the spine.

- Zero-Torque Technology®
- No Profile Above the Rod
- One-Step Final Locking
- 60° Range of Motion
- Controlled Compression & Distraction
- Implant & Instrument Design Facilitates Full Rod Reduction Capability

QUICK LOCKER

STEP 1: ENGAGE

SIMPLE PARTIAL LOCK

Optional Step for Simple & Controlled Compression & Distraction

STEP 2: FINAL LOCK

DRAGONFLY™

STEP 1: ENGAGE

STEP 2: ROD REDUCTION

STEP 3: PARTIAL LOCK
