

COMPLEX SPINE
INNOVATIONS™

mesa mini

MESA® Mini Spinal System

Ø3.5 mm rod system that offers an all-inclusive answer for rigid posterior fixation of the cervico-thoracic regions of the spine. Based on our breakthrough, revolutionary MESA® Zero-Torque Technology®, this comprehensive system features a low-profile 90° range of motion thoracic screw, multiple hook and rod options, and a full complement of easy-to-use instrumentation.

- Zero-Torque Technology®
- No Profile Above the Rod
- 90° Polyaxial Range of Motion
- Controlled Compression & Distraction
- One-Step Final Locking

Polyaxial Screws

MESA® Mini

- 90° Polyaxial Range of Motion
- 3.5, 4.0, & 4.5 mm Diameters
- 2 mm Incremental Lengths
- Color-Coded by Length
- Long Shanks Available (8 mm of Smooth)

Reduction Instrumentation

Mini Cricket™

- 10 mm of Controlled Reduction
- Ability to Dissipate Forces With Segmental Reduction of the Rod

Connectors, Hooks, & Rods

Parallel

- Ø3.5–Ø3.5 mm
- Ø3.5–Ø5.5 mm

Axial

- Ø3.5–Ø3.5 mm
- Ø3.5–Ø5.5 mm

Offset

- 10 mm
- Top Loading

Hooks

- Posterior Cervical
- Infralaminar

- Pedicle

- Offset

- Laminar

Rods

- Ø3.5 mm Titanium Straight
- Ø3.5 mm Cobalt Chrome Straight
- Ø3.5–Ø5.5 mm Titanium Transition
- Ø3.5–Ø5.5 mm Cobalt Chrome Transition
